

Forest Road 21 (Spring Creek Road) - Dark Canyon Culvert Replacement

The contractor is beginning work the week of September 10th. The 21 road will be closed at some point on the day they start. The contractor plans to have the project completed within ten days. There will be a detour route for pickup trucks only. The detour route is not suitable for trailer access.

Detour Information

The construction closure area is just east of the 2100/2135 junction.

From I-84

Just prior to the Dark Canyon Culvert replacement site take a right on the 400 road and continue to the junction of the 2135. Driving left on the 2135 from that junction will take you back to the 2100 road and the opposite side of the construction closure. Taking a right on the 2135 road will take you to FS 2100 / County Rd 1 / McIntyre Road.

From McIntyre Road

Take the 2135 to the 400 road junction. Turn left and continue on the 400 until you reach the 2100. Turn left towards I-84.
